Note:

This material is included with a Short Form of Evidence:

- 1) Contact Information page(s)
- 2) MapQuest webpage(s) - [www.mapquest.com]

Key 2: Key for Documentation

1) Environmental Working Group's Farm Subsidy Database

- a) Environmental Working Group will be abbreviated as EWG.
- b) Environmental Working Group's Farm Subsidy Database will be abbreviated as EWGFSD.
- c) Performing a 'business name' search can lead to a search result webpage with the 'business name' as the search term appearing in a data box for 'Corporate Subsidy Recipients'. The real business name will appear in a different data box with a 'Subsidy Total' financial figure. For example, \$100.15. I believe this financial figure is EWG's exact calculation of the USDA farm subsidy total. This financial figure will be represented by a 'Subsidy Payments' financial figure on a 'Farm Location(s)' webpage but the financial figure will appear in a form I believe is EWG's rounded off calculation of the 'Subsidy Total' financial figure. For example, \$100.
- d) A number appearing in the top left hand corner of a webpage is a numerical figure representing a number of searches made by visitors to EWG's farm subsidy database. For example, 184,441,167.

2) Internal Revenue Service (IRS)

- a) Internal Revenue Service will be abbreviated as IRS.
- b) Types of tax-exempt organizations
The IRS website has reference material for types of tax-exempt organizations, referred to as a exempt organization (EO), and their IRS tax classification.
 - a) 'Appendix Types of Tax-Exempt Organizations by Internal Revenue Code Section'
To find this webpage at the IRS website [www.irs.gov] make these steps:
 - 1) Find the webpage 'SOI Tax Stats - Exempt Organizations: IRS Master File Data' at [http://www.irs.gov/taxstats/charitablestats/article/0,,id=97186,00.html]
 - 2) Find the section 'Background' and click on the link 'Appendix of Types of Exempt Organizations: IRC Section, Description of Organization, and General Nature of Activities'.
 - b) 'Other Tax-Exempt Organizations' at:
[http://www.irs.gov/charities/article/0,,id=96184,00.html]

c) Decoding IRS EO/BMF data

IRS Exempt Organization (EO) data from the Business Master File (BMF) is set up in an encoded form. A key for decoding EO/BMF data is included in a Statistics of Income (SOI) document entitled 'EXEMPT ORGANIZATION INFORMATION AVAILABLE THROUGH THE STATISTICS OF INCOME (SOI) "Tax Stats" WEB SITE' dated 2/9/09. To find the SOI document at the IRS website [www.irs.gov] make these steps:

- 1) Find the webpage 'SOI Tax Stats - Exempt Organizations: IRS Master File Data' at [http://www.irs.gov/taxstats/charitablestats/article/0,,id=97186,00.html]
- 2) Find the section 'Exempt Organizations Master Listing' and click on a link for an Instruction Booklet in a Microsoft Word version or a Plain ASCII Text version.

The SOI document includes a 'Table of EO Subsection and Classification Codes' that includes the Internal Revenue Code Section (IRC Section) for some of the organizations listed in the Table but not for all of the organizations. The SOI Table includes a description of an organization representing the classification of the organization but the description is not specified as a classification. These problems are solved by a webpage entitled 'Internal Revenue Manual - 25.7.2 EO/BMF Processing Procedures' at: [http://www.irs.gov/irm/part25/irm_25-007-002.html]. This webpage includes a 'Table of EO Subsection and Classification Codes' for EO/BMF data. The Table can be used as a data source for the SOI 'Table of EO Subsection and Classification Codes'. The Table includes the IRC section for all of the organizations listed in the Table and includes a classification of an organization that is represented by a description of the organization found in the SOI Table.

In a Corel WordPerfect document entitled 'IRS EO/BMF Data Decoded' included with EO/BMF data for a organization you will find EO/BMF data for a organization decoded for EIN, IRC Section, and Ruling Date. Data for Subsection Code and Classification Code will be decoded as IRC Section.

For example, Subsection Code 40 and Classification Code 1 will be decoded as:

- a) Subsection Code 40
 - IRC Section:
 - 1) IRM Table: 501(d)
 - 2) SOI Table: 501(d)
- b) Classification Code 1
 - 1) IRM Table
 - Classification: Apostolic and religious organization
 - 2) SOI Table
 - Description: Apostolic and Religious Org.
- c) Decoded data
 - IRC Section:
 - 1) IRM Table: 501(d) Apostolic and religious organization
 - 2) SOI Table: 501(d) Apostolic and Religious Org.

The reason I am including the IRC section from the IRM Table and the SOI Table is I believe the IRM Table is a original version of IRS data and the SOI Table is a derivation of the IRM Table. The SOI document that includes the SOI Table is included as a Instruction Booklet for EO/BMF data at the webpage 'SOI Tax Stats - Exempt Organizations: IRS Master File Data' that includes EO files but I believe the IRM Table is a more accurate version of IRS data.

To simplify the process of decoding EO/BMF data refer to the data for name, address, Subsection Code, and Classification Code to determine a organization's IRC section.

For a easier method of determining a organization's IRC section refer to data from the National Center for Charitable Statistics (NCCS), Melissa Data, or TaxExemptWorld.com.

For a easier method of determining if a organization is a tax-exempt nonprofit organization refer to the name and address of a organization included in EO/BMF data.

- d) To be able to print a page from a EO file, as a ASCII text file (12/7/2009), EO files were downloaded onto a CD and the compressed files were opened with a Zip software program. A printer left some marks on some of the EO file pages but these marks will not appear in a relevant data field and all relevant data field characters and numbers will be legible. The printer problem was fixed at a later date. Later versions of EO file webpages were printed directly from the IRS website.

Master List

Subject: Keys for Documentation

(page 5)

3) Corel WordPerfect document entitled 'IRS EO/BMF Data Decoded'

- a) EO/BMF data for a organization will be decoded for EIN, IRC Section, and Ruling Date. Data for Subsection Code and Classification Code will be decoded as IRC Section. IRC Section will be expressed in 2 forms, as IRM Table and SOI Table, to clarify the classification of a organization. For more information about the IRM Table and SOI Table refer to (2)(c) Decoding IRS EO/BMF data.

4) National Center for Charitable Statistics (NCCS)

- a) National Center for Charitable Statistics will be abbreviated as NCCS.
- b) NCCS offers 2 types of search for data about a nonprofit organization:
 - 1) 'NCCS - Search Active Organizations'
 - 2) 'NCCS - Search NCCS Master File'

The first type of search provides data for a active organization. The second type of search provides data for a active or inactive organization. The 2 types of search can provide the same data for a active organization so the data from the 'NCCS - Search NCCS Master File' search could be discarded. The problem is data for one organization could appear as 'NCCS - Search Active Organizations' and data for another organization could appear as 'NCCS - Search NCCS Master File'. As a solution to a problem of misinterpretation I am including the 2 types of search data for a organization, if available. This way I can demonstrate that data for a active organization can be found from both types of search as the same data and could not be interpreted as contradictory data.

- c) 'EIN' refers to Employer Identification Number, as a number assigned by IRS to identify a organization's account.

d) NCCS data will include a reference for a 'Rule Date' and a 'Ruling Date (Approximate year when founded.*)'. These references refer to the same date as the date IRS recognizes a nonprofit organization as tax-exempt. NCCS uses the Ruling Date as a proxy for when a organization was created so they are including a reference to this date as 'Approximate year when founded'. To find information about the Ruling Date (Rule Date) and the way NCCS uses the Ruling Date make these steps:

1) Find the NCCS website [www.nccs.urban.org] and click on the link '(Approximate year when founded.*)' at a webpage for data about a nonprofit organization.

OR:

2) Find a webpage entitled 'KnowledgeBase - Using the Ruling Date (RULEDATE) for Research' at:

[<http://nccsdataweb.urban.org/knowledgebase/detail.php?linkID=762&category=83&xrefID=3433>]

The NCCS KnowledgeBase webpage will explain the limitations of using the Ruling Date as a proxy for when a organization was created.

e) 'IRS Subsection' refers to Subsection Code. This code can be found in a Internal Revenue Manual (IRM) 'Table of EO Subsection and Classification Codes' for EO/BMF data. EO/BMF data is set up in a encoded form. A subsection code can be decoded as IRC Section. For example, subsection code 40 refers to IRC section 501(d). As a reference to a complete form of a IRC section, subsection code 40 and classification code 1 refers to IRC section 501(d) Apostolic and religious organization.

f) 'IRS Type' includes data for Subsection Code and IRC Section.

For example, [40- Apostolic and religious orgs. - 501(d)]

1) 40 is the subsection code.

2) 'Apostolic and religious orgs. - 501(d)' is a reference to IRC section.

g) 'NTEE' refers to National Taxonomy of Exempt Entities (NTEE) Code, as a code used by IRS to classify a exempt organization in terms of its 'primary exempt activity'. NTEE Code as 4 digits can be condensed to form a NTEE core code as 3 digits. According to a Statistics of Income (SOI) document NTEE Code is a 4-digit number but SOI will not define the 4th digit for the NTEE Code data field, as 'Position: 279-282'. SOI says the 4th digit further defines the classification of a organization. The SOI document includes a reference to NTEE Core Codes in a sequence of 3 characters, as 1 character and 2 numbers. For example, X99. EO/BMF data for NTEE Code can appear as 'X99', as a NTEE core code. So, EO/BMF data for NTEE Code can be expressed as a NTEE core code. So, a NTEE Code data field of 4 digits, as 'Position: 279-282', can express only 3 digits by not including the 4th digit.

A NTEE core code will include a classification of a exempt organization. For example, NTEE core code 'X99 Religion Related, Spiritual Development N.E.C.'. N.E.C. refers to 'Not Elsewhere Classified'.

The SOI document is entitled:

[EXEMPT ORGANIZATION INFORMATION AVAILABLE THROUGH THE STATISTICS OF INCOME (SOI) "Tax Stats" WEB SITE] dated 2/9/09.

To find the SOI document refer to 2(c) Decoding IRS EO/BMF data.

5) Melissa Data

- a) Melissa Data refers to IRC Section as IRS Subsection. IRC section 501(d) is a reference to U.S. Code Title 26, Section 501, Subsection (d), as IRS tax code information.
- b) 'Tax I.D. Number' is the same number as Employer Identification Number (EIN), as a number assigned by IRS to identify a organization's account.
- c) 'Exempt Since' refers to Ruling Date (Rule Date), as the date IRS recognizes a nonprofit organization as tax-exempt.
- d) Melissa Data webpages will appear in a 'Portrait' and 'Landscape' print orientation. The reason is the 'Portrait' orientation includes all of the relevant data but does not include the whole page of data. The 'Landscape' orientation will include the whole page of data.

6) TaxExemptWorld.com

- a) On a 'organization name' search result webpage 'Classification' can refer to IRC section and NTEE core code. For example:
[Apostolic and Religious Org. (501(d)) (Religion Related, Spiritual Development N.E.C.)] as:
 - 1) IRC Section: 501(d) Apostolic and Religious Org.
(note: derivation of IRC section 501(d) Apostolic and religious organization)
 - 2) NTEE Core Code: X99 Religion Related, Spiritual Development N.E.C.
(note: NTEE core code X99, and classification)
- b) On a 'organization name' search result webpage 'Exempt Status As Of Date' refers to Ruling Date (Rule Date) as the date IRS recognizes a nonprofit organization as tax-exempt.
- c) On a 'Tax Exempt/NonProfit Organization Information' webpage 'Taxonomy' refers to National Taxonomy of Exempt Entities (NTEE) Code. Taxonomy information refers to NTEE Core Codes. NTEE Core Codes include a classification of a exempt organization's 'primary exempt activity'. For example, 'Religion Related, Spiritual Development N.E.C.' refers to NTEE core code 'X99 Religion Related, Spiritual Development N.E.C.'. N.E.C. refers to 'Not Elsewhere Classified'. The description of 'Taxonomy' as 'classifies an exempt Internal Revenue Code 501(c)(3) organization' is correct but inaccurate. NTEE Core Codes refer to all IRC sections for exempt organizations including IRC section 501(c)(3). So, taxonomy information will include NTEE core codes for all IRC sections as tax-exempt.
- d) TaxExemptWorld.com webpages will appear in a 'Portrait' and 'Landscape' print orientation. The reason is a 'Portrait' orientation will be missing a piece of information. The missing piece is a part of the number 9 from the year 2009 found in the line 'Data Updated on 09/15/2009' in the upper right hand corner of a webpage. A 'Landscape' orientation will include the missing piece of information and the whole page of information. The problem was corrected starting with the documentation for North Gildford Hutterian Brethren (MT).

7) Manta

- a) I am including Manta company profile information to establish the way a organization can appear to be a standard business if IRS tax filing information is not included. Manta data is also useful for investigation work.
- b) Manta company profile information includes these 2 categories:
 - 1) 'Also Does Business As'
 - 2) 'Employees (Estimated)'

The category 'Also Does Business As' will list different business names used by a organization. The category 'Employees (Estimated)' will list a estimated number of employees at a organization. A positive numerical figure for a Hutterite colony will make the Hutterite colony appear to be a standard business. Under common law rules anyone who performs services for a organization is the organization's employee if the organization can control what will be done and how it will be done. I believe the definition of a common law employee is being used to represent members of a Hutterite colony as employees. I believe the appearance of a Hutterite colony as a standard business with public employees is a illusion since Hutterite colonies are not offering employment.

8) The Federation of East European Family History Societies (FEEFHS)

- a) The Federation of East European Family History Societies will be abbreviated as FEEFHS.
- b) A data source for a list of Hutterite colonies, as 'Hutterite Place Names in North America', found at the FEEFHS website [www.feefhs.org] is a 'List of Hutterite Colonies in North America' from a book entitled 'Hutterite Society' by John A. Hostetler (John Hopkins University Press, 1974).

9) Global Anabaptist Mennonite Encyclopedia Online (GAMEO)

- a) Global Anabaptist Mennonite Encyclopedia Online will be abbreviated as GAMEO.
- b) A data source for a list of Hutterite colonies, as a Census of Hutterite Bruderhofs in North America, found at the GAMEO website [www.gameo.org] is the Mennonite Encyclopedia.

10) Rocky Cape Christian Community

- a) Rocky Cape Christian Community will be abbreviated as RCCC.
- b) Website has a link to a Intentional Communities (IC) database document 'American Communities' as a data source for a list of Hutterite colonies as 'Hutterite Communities'. [www.thecommonlife.com/bookshelf] (link 'American Communities'), [www.ic.org]

11) Corel WordPerfect document entitled 'Hutterite Surnames'

- a) A comparison of Hutterite surnames from the webpages 'Founding families' and 'Surnames of Founding Families' at the FEEFHS website [www.feefhs.org] and surnames from USDA ownership shares information for a organization from EWG's farm subsidy database at the website [www.ewg.org/agmag] or [<http://farm.ewg.org/>].

Master List
Subject: Keys for Documentation
(page 10)

12) Hutterite Directory

- a) The Hutterite Directory provides contact information for Hutterite colonies in the USA and Canada. The website [www.hutterites.org] is a Hutterian Brethren (Hutterite) website and is maintained by Mark Waldner, Decker Colony, Manitoba, Canada. The Hutterite Directory is a project of Cedrontech, established as a trademark in 2004 by Newdale HB Inc. Cedrontech's postal address is the same as the postal address for Newdale Colony, Elkton, SD, except for the Zip Code. Newdale Colony is a Hutterite colony and their contact information can be found in the Hutterite Directory. So, I believe Newdale HB Inc is Newdale Hutterian Brethren Inc, Elkton, SD. I believe the Hutterite Directory is a project of Newdale Hutterian Brethren Inc. So, I believe the data is valid.

Notes:

1:

HB stands for Hutterian Brethren.

2:

Reference to confirmed or not confirmed refers to status of a USDA farm subsidy recipient as a Hutterite colony. Confirmation is based on documentation.

3:

In reference to these USDA farm subsidy recipients:

a) Old Elm Spring Colony, Parkston, SD 57366

b) New Elm Spring Colony, Ethan, SD 57334

c) New Elm Spring Hutterian Brethren, Ethan, SD 57334

The data record does not indicate these names are the same identity. The 2 names starting with New Elm Spring are the same identity by definition. Old Elm Spring and New Elm Spring could be the same identity or they could be a parent colony and a branch colony. For this Master List these names will be counted separately. (List 3, 53)

4:

For [Sunset Colony, Sunset HB Inc] (List 3, 77), these names will be counted separately.

5:

Total number of names on List 1 = 84

Total number of names on List 2 = 60

Total number of names on List 3 (confirmed and not confirmed) = 78

Total number of names on List 3 (not confirmed) = 6

Total number of names on List 3 (confirmed) = 72

6:

70 names (confirmed) on List 3 match 69 names on List 1.

53 names (confirmed) on List 3 match 52 names on List 2 (Hutterite Directory).

a) Warden Hutterian Brethren, Warden, WA 98857

b) Warden Hutterian Brethren Trust, Warden, WA 98857

The data record does not indicate these names are the same identity. Warden HB Trust is a part of a confirmed Hutterite colony as Warden HB. For this Master List these names will be counted separately. (List 3, 6)

3:

Total number of names on List 1 = 6

Total number of names on List 2 = 5

Total number of names on List 3 = 5

> Calculations

1:

a) Total number of organizations = 14

b) Total number of organizations confirmed as a Hutterite colony = 14

c) Total number of organizations not confirmed as a Hutterite colony = 0

2(a):

The calculation for the corrected USDA farm subsidy total is:

a) Corrected farm subsidy total: [Subsidy Total 1995-2010: \$10,037,704.25]

(note 1: calculation represents a estimated total that can be regarded as being within \$1 of the exact total), (note 2: for note on data correction refer to [Calculations, 2(b)])

2(b):

To give a accurate farm subsidy total for the combined total of the 2 different data records for [Haven Hutterian Brethren Inc, Dexter, MN 55926] a data correction needs to be made for the overlapping 'Summary' data for 2006 from the 2 different data records. To make the correction the data for 2006, as \$216, will be deleted from the figure \$29,257.00 to reflect a farm subsidy total that applies to 1995-2005.

The data from the 2 different data records is:

1) [Subsidy Total 1995-2010: \$29,257.00] (data applies to 1995-2006)

2) [Subsidy Total 1995-2010: \$4,289.00] (data applies to 2006-2010)

The corrected farm subsidy total for (1) is:

[Subsidy Total 1995-2010: \$29,041] (estimated total) (data applies to 1995-2005)

The calculations for the farm subsidy total are:

1) Combined farm subsidy total:

[Subsidy Total 1995-2010: \$33,546.00]

2) Corrected combined farm subsidy total:

[Subsidy Total 1995-2010: \$33,330] (estimated total)

Note:

The USDA farm subsidy data for [Haven Hutterian Brethren Inc, Dexter, MN 55926] is from the Environmental Working Group's Farm Subsidy Database at [<http://farm.ewg.org/>]. EWG represents USDA farm subsidy data with exact financial figures and rounded off financial figures. For example, their financial figures for Haven HB Inc appear this way:

1) [Subsidy Total 1995-2010: \$29,257.00]

2) [Subsidy Payments 1995-2010 Total: \$29,257]

The financial figure for the corrected farm subsidy total (\$29,041) is derived from a calculation that includes a rounded off figure (\$216) so the total is a estimated total. As a result the financial figure for the corrected combined farm subsidy total (\$33,330) will be a estimated total. EWG will round off their USDA farm subsidy data to within \$1 of the exact total for some calculations.

1:

a) Total number of organizations = 13

b) Total number of organizations confirmed as a Hutterite colony = 13

c) Total number of organizations not confirmed as a Hutterite colony = 0

2(a):

The calculation for the corrected USDA farm subsidy total is:

a) Corrected farm subsidy total: [Subsidy Total 1995-2010: \$8,859,141.91]

(note 1: calculation represents a estimated total that can be regarded as being within \$1 of the exact total), (note 2: for note on data correction refer to [Calculations, 2(b)])

2(b):

To give a accurate farm subsidy total for the combined total of the 2 different data records for [Haven Hutterian Brethren Inc, Dexter, MN 55926] a data correction needs to be made for the overlapping 'Summary' data for 2006 from the 2 different data records. To make the correction the data for 2006, as \$216, will be deleted from the figure \$29,257.00 to reflect a farm subsidy total that applies to 1995-2005.

The data from the 2 different data records is:

1) [Subsidy Total 1995-2010: \$29,257.00] (data applies to 1995-2006)

2) [Subsidy Total 1995-2010: \$4,289.00] (data applies to 2006-2010)

The corrected farm subsidy total for (1) is:

[Subsidy Total 1995-2010: \$29,041] (estimated total) (data applies to 1995-2005)

The calculations for the farm subsidy total are:

1) Combined farm subsidy total:

[Subsidy Total 1995-2010: \$33,546.00]

2) Corrected combined farm subsidy total:

[Subsidy Total 1995-2010: \$33,330] (estimated total)

Note:

The USDA farm subsidy data for [Haven Hutterian Brethren Inc, Dexter, MN 55926] is from the Environmental Working Group's Farm Subsidy Database at [<http://farm.ewg.org/>]. EWG represents USDA farm subsidy data with exact financial figures and rounded off financial figures. For example, their financial figures for Haven HB Inc appear this way:

1) [Subsidy Total 1995-2010: \$29,257.00]

2) [Subsidy Payments 1995-2010 Total: \$29,257]

The financial figure for the corrected farm subsidy total (\$29,041) is derived from a calculation that includes a rounded off figure (\$216) so the total is a estimated total. As a result the financial figure for the corrected combined farm subsidy total (\$33,330) will be a estimated total. EWG will round off their USDA farm subsidy data to within \$1 of the exact total for some calculations.
